WHY IS HAPPENING IN AGRICULTURE!

The Parliamentary Secretary in the Ministry of Industry and Commerce, Mr. Len. B. Brookes, has told the House of Representatives that food imports now are more expensive than they were in the last half of 1972. The new prices have been driven up by a number of factors, including the increase in the cost of living, the depreciation of the dollar, and the rise in the cost of transportation.

The Government is aware of the problem and is taking steps to reduce the import of food. The Prime Minister, Sir Alexander Bustamante, has said that the Government will continue to encourage local farmers to increase production and to reduce the import of food.
